ABSTRACT

This document provides postsecondary completion data for awards/degrees conferred between July 1, 1999 and June 30, 2000 by each of Maine's public and private colleges and universities. The data are displayed as they relate to each of 10 award levels, that range from "01," "awards of less than 1 academic year below the bachelor's level," and "10," First Professional Degree. Figures are reported for public and private institutions by gender, by racial and ethnic category, and by combined totals, and data for each award level is also displayed by Classification of Instructional Program codes. During the 1999-2000 academic year, a total of 3,790 men and 5,558 women, for a total of 9,348 individuals, graduated from Maine's public and private colleges. These totals reflect a 3.07% increase over the 1998-1999 academic year, and most of this increase was in male graduates. (Contains 15 tables.) (SLD)

INTRODUCTION

This document provides postsecondary completion data for awards/degrees conferred between July 1, 1999 and June 30, 2000 by each of Maine's public and private colleges and universities. The data is displayed as it relates to each of ten (10) award levels which vary as follows:

AWARD LEVEL	AWARD DESCRIPTION
01	Awards of less than 1 Academic year below the bachelor's level (less than 900 contact or clock hours)
02	Awards of at least but less than 2 academic years below the bachelor's level (at least 900 but less than 1800 contact or clock hours)
03	Associate's Degree
04	Awards of at least 2 but less than 4 academic years below the bachelor's level (at least 1800 but less than 3600 contact or clock hours)
05	Bachelor's Degree
06	Post baccalaureate Certificate
07	Master's Degree
08	Post- Master's Certificate
09	Doctor's Degree
10*	First Professional Degree

Figures are reported for public and private institutions, by gender, by racial/ethnic category, and by combined totals (Pages 1-68). The data for each award level is also displayed by Classification of Instructional Programs (CIP) codes. Utilizing CIP codes permits a consistency of meaning for reporting completions by program titles. The summary of awards/degrees totaled by award levels and by CIP codes (Pages 69-94) provides an indication of interest by program areas- what has been most sought and what has not. Composites of totals include a summary of the numbers of degrees awarded by each institution (Pages 66-68), a summary of the twenty highest completion rates by award level and fields of study (Pages 95-98).

The figures reported have been derived from the completions data submitted by each of Maine's degree-granting institutions in response to the Integrated Postsecondary Education Data Systems (IPEDS) surveys compiled annually for the National Center for Education Statistics (NCES). The completions survey is one of ten postsecondary education instruments administered through the Maine Department of Education in cooperation with the United States Department of Education. To date, NCES does not compile educational statistics for private businesses, trade and technical schools, hence, this document does not include completions data unique to Maine's Proprietary institutions.

During the 1999-2000 academic year a total of 3,790 men and 5,558 women, for a total of 9,348 individuals, graduated from Maine's Public and private colleges and universities at the associate, bachelor's and graduate levels. This total reflects a 3.07% increase over the 1998-1999 academic year when 3,539 men and 5,530 women, for a total of 9, 069 individuals, graduated from Maine's higher education institutions. Nearly 90% of the increase over the 1998-1999 academic year were in male graduates.

This document was prepared by Kimberly Stowers, a Margaret Chase Smith Center for Public Policy summer intern in the Department of Education. The Department acknowledges her valuable assistance and this contribution to higher education in Maine.
